## Declaration of Authorship

I, **Steve R. Gunn** , declare that the thesis entitled and the work presented in the thesis are both my own, and have been generated by me as the result of my own original research. I confirm that:

- this work was done wholly or mainly while in candidature for a research degree at this University;
- where any part of this thesis has previously been submitted for a degree or any other qualification at this University or any other institution, this has been clearly stated;
- where I have consulted the published work of others, this is always clearly attributed;
- where I have quoted from the work of others, the source is always given. With the exception of such quotations, this thesis is entirely my own work;
- I have acknowledged all main sources of help;
- where the thesis is based on work done by myself jointly with others, I have made clear exactly what was done by others and what I have contributed myself;
- parts of this work have been published as: No citations

## Introduction

You probably found all the files from [Gunn \(2001\)](#). Table [1.1](#) illustrates the results of my work.

Training Error	Testing Error
0	$\infty$

Table 1.1: The Results

Figure [1.1](#) shows why this is the case.
